This wonderful home in Hawthorne Hills is solidly built and very light with a large bay window and skylights, eastern exposure for lovely sunrises and mountain views that would be enhanced if a second story were added! Versatile spaces, a great circular floor plan with three bedrooms on the main floor, the renovated kitchen with Silestone counters and cherry cabinets, gleaming hardwood floors, a fully finished lower level, plus updated plumbing and electrical systems.

Includes a nice garden with a drip irrigation system and fruit trees in the "mini-orchard". Close to UW, Children's Hospital, Fwy 520, Magnuson Park, the Burke-Gilman trail, Metropolitan Market and the PCC, with excellent access to downtown via an express bus on 65th.
